

## Canadian Peony Society 2019 Seed List [Harvest 2018] Updated June 2019

Hello Peony Friends,

My name is John Moons. This is the second year that I am co-ordinating the Seed Exchange for the Canadian Peony Society. I live with my wife, Joan Campbell, on 6 acres of land near the City of Brantford in Southern Ontario. We have heavy and wet clay so it is a challenge to grow anything. We have about 30 peonies and a wide variety of other plants. I studied Horticulture in The Netherlands and worked for 38 years for different tree nurseries around Hamilton, ON.

This year I received seed from 13 donors and we would like to thank them. Our generous American friend, Gregory Rockwell, sent us a good number of seeds of Chinese and Japanese tree peonies from Indiana. His peony season was very wet so he had a smaller crop of seeds than usual. This year I also received seeds from Michael Turunen in Finland. The rest of the seeds came from Canadian sources. Twenty minutes south of Brantford is a privately-owned botanical garden called Whistling Gardens. The owners, Darren and Wanda Heimbecker, have the biggest peony collection in North America with more than 1,000 varieties. The Heimbeckers were kind enough to let me pick their peony seeds. I spent many afternoons collecting thousands of seeds from more than 240 different peonies. This year we have 30 more species, hybrids, cultivars and crossings than last year. We have over 21,000 seeds (2018 – 16,000).

How many seeds I put in each packet depends on how many seeds were collected from that plant. We have a few with only one or two seeds, but I also have some peonies with 750 seeds. Peonies with an \* means that we have a limited supply.

### Ordering

Send your list (please write both the item number and the name) of requested seeds to:

Canadian Peony Society Seeds c/o John Moons  
34 Langford Church Road  
Brantford, ON N3T 5L4

Please list a few alternatives for each choice. If you would like instructions on germinating peony seed, please ask and I will send it with your seeds. You may certainly order more than one packet. For the first month of the listing I will limit you to a maximum of 3 packets of seed from each individual peony. Non-members may order from the list, but where quantities are scarce, members' orders will have priority.

Please enclose a cheque or money order (in Canadian funds) payable to the Canadian Peony Society. Do not send money through the mail. We will also accept payment in the form of Canadian postage stamps. If you want to pay with PayPal, we will send you an invoice and you can E-mail [info@peony.ca](mailto:info@peony.ca) to access our account. Remember to include your mailing address with your order, or a mailing label if you have one. The price has gone up from last year. If you compare the price of the seeds of our peonies with seeds of other plants, then I believe the price is very reasonable. And a peony plant can last you a life time! Cost is \$3.00 per packet plus a shipping charge of \$2.00 for every 5 packets shipped out.

For example: 5 packets : \$15.- + \$2.- = \$17.-, 6 packets: \$18.- + \$4.- = \$22.-, 10 packets: \$30.- + \$4.- = \$34.- , 11 packets: \$33.- + \$6.- = \$39.-. Everything is in Canadian Funds.

If you need peony seed for your peony group or garden club, contact me to make special arrangements.

John Moons
